Flood Relief

Many districts in the state of Maharashtra faced intense floods, landslides, shortage of drinking water, medicine and food due to the heavy rainfall in the month of July. Khushiyaan foundation along with Child help Foundation(CHF) started the relief work to provide support to these affected people by providing them ration kits, sanitary pads, soaps and medicines.

Flood Relief

The Khushiyaan and CHF team hit the ground carrying this operation with precautions as the Covid cases were still at peak. They successfully distributed these kits in Chiplun and Khed to 4,000 beneficiaries. At the same time, they provided the kits to 500 plus families that suffered in the landslide in Sangli.

TOKYO

(Athletes and the people behind their success)

During the **Tokyo Olympics**, the athletes representing India created history in hockey, javelin throw, rowing, fencing, sailing, and many more and have given a new face to the sports in our nation. The players have given their best shot in all the matches to win India a medal. Many of these players lacked financial support, still, have they reached the place where they are. But, there are many others who give up their dream of becoming a sports person due to financial problems.

We, at *Filaantro*, believe in supporting those athletes by providing them a platform where they can raise funds for themselves and accomplish their dreams, and in the future win many medals for the country.

Heartfelt congratulations to every athlete that represented India in Tokyo Olympics 2021!!
